No amendments or changes to the Drawings are proposed.

Section IV:
AMENDMENT UNDER 37 CFR §1.121
REMARKS

Notice of Allowance and Examiner's Amendment

We appreciate the Examiner's allowance of claims 1 - 15. We accept the Examiner's amendment as set forth in the Notice of Allowance.

RCE and Amendment

In the reasons for allowability, the Examiner has stated that the cited art does not teach that multiple copied resources are concatenated into a single transfer buffer.

The present amendment focuses the claims on this patentable distinction, while retaining the previously-allowed claims as dependent claims. We respectfully request consideration of our amendment, and allowance of the claims as amended.

Request for Indication of Allowable Subject Matter

We believe the present amendment places the claims in condition for allowance. If, for any reason, it is believed that the claims are not in a condition for allowance, we respectfully request constructive recommendations per MPEP 707.07(j) II which would place the claims in condition for allowance without need for further proceedings. We will respond promptly to any Examiner-initiated interviews or to consider any proposed examiner amendments.

Respectfully,

/ Robert Frantz /
